1 Conventions

The body is the last positional argument, `#note(..)[body]`, or use `#show: note.with(..)`.

Wherever `author` or `supervisor` is accepted it may be a string or an array of strings; arrays are joined with commas and a final "&", and the label is pluralised. `date` may be a string or any content, e.g. `datetime(..).display()`.

Shared defaults:

Constant	Value
`default-title`	`"Untitled Document"`
`default-author`	`"Firstname Lastname"`
`default-course`	`"DM000"`
`sdu-university`	`"University of Southern Denmark"`

2 page-setup

No parameters. A4 with 3 cm side and 2 cm top/bottom margins, plus `base-style`.

3 thesis

Parameter	Type	Default	Description
`title`	`string`	`default-title`	Thesis title
`subtitle`	`string`	`none`	Small-caps subtitle under the title
`author`	`string | array`	`default-author`	Thesis author(s)
`supervisor`	`string | array`	`none`	Thesis supervisor(s)
`department`	`string | array`	`none`	University department(s). Presets: `imada`, `bmb`, `biology`, `fkf`
`programme`	`string`	`none`	Red label above the title (default "THESIS")
`university`	`string`	`sdu-university`	University name
`date`	`string`	`none`	Date of thesis release
`logo`	`content`	`none`	Custom image e.g. `image("sdu-logo.png", width: 12em)`
`outline`	`bool`	`true`	Table of contents after the cover
`outline-depth`	`int`	`none`	Max heading depth in the outline

4 note

Parameter	Type	Default	Description
`title`	`string`	`default-title`	Note title
`subtitle`	`string`	`none`	Italic subtitle under the title
`author`	`string | array`	`default-author`	Note author(s)
`supervisor`	`string | array`	`none`	Lecturer(s) or supervisor(s)
`course`	`string`	`default-course`	Course name or code
`date`	`string`	`none`	Date of the note
`logo`	`content`	`none`	Custom image e.g. `image("sdu-logo.png", width: 12em)`
`outline`	`bool`	`true`	Table of contents after the cover
`outline-depth`	`int`	`none`	Max heading depth in the outline

5 exercise and assignment

Both take the same parameters as `note`.

6 project

Parameter	Type	Default	Description
`title`	`string`	`default-title`	Project title
`subtitle`	`string`	`none`	Italic subtitle under the title
`author`	`string | array`	`default-author`	Project author(s); array items may be strings or `(name:, email:)` dicts
`course`	`string`	`default-course`	Course name or code
`date`	`string`	`none`	Date of hand-in, in the info box
`group`	`string`	`none`	Group name or number, in the info box
`supervisor`	`string | array`	`none`	Project supervisor(s), in the info box
`university`	`string`	`sdu-university`	University name
`logo`	`content`	`none`	Custom image e.g. `image("sdu-logo.png", width: 12em)`
`abstract`	`content`	`none`	Abstract shown on the cover
`keywords`	`string | array`	`none`	Keywords under the abstract
`outline`	`bool`	`true`	Table of contents after the cover
`outline-depth`	`int`	`none`	Max heading depth in the outline
`info-width`	`relative`	`60%`	Width of the info box
`author-dots`	`bool`	`false`	Authors on one line joined by `" · "` instead of a grid

7 basic

The simplest template: title, authors and date above the body on the first page.

Parameter	Type	Default	Description
`title`	`string`	`default-title`	Document title
`subtitle`	`string`	`none`	Italic subtitle under the title
`author`	`string | array`	`default-author`	Document author(s)
`date`	`string`	`none`	Date of the document
`outline`	`bool`	`false`	Table of contents under the title
`outline-depth`	`int`	`none`	Max heading depth in the outline

8 submission

A title card only: no cover page or outline, the body starts on the same page.

Parameter	Type	Default	Description
`title`	`string`	`default-title`	Submission title
`subtitle`	`string`	`none`	Italic subtitle under the title
`author`	`string | array`	`none`	Submission author(s)
`supervisor`	`string | array`	`none`	Supervisor(s), in the info box
`institution`	`string`	`sdu-university`	Institution name, in the info box
`date`	`string`	`none`	Date of hand-in, in the info box
`logo`	`content`	`none`	Custom image e.g. `image("sdu-logo.png", width: 12em)`
`course`	`string`	`none`	Course name or code, under the title
`group`	`string`	`none`	Group name or number, under the authors
`info-width`	`relative`	`70%`	Width of the info box

9 exam

The page header (author · username · student number) appears when `username` or `student-number` is set.

Parameter	Type	Default	Description
`title`	`string`	`default-title`	Exam title
`subtitle`	`string`	`none`	Italic subtitle under the title
`author`	`string | array`	`default-author`	Exam author(s); array items may be strings or `(name:, id:)` dicts
`course`	`string`	`default-course`	Course name or code
`date`	`string`	`none`	Date of the exam, in the info box
`username`	`string`	`none`	Student username, in the page header
`student-number`	`string`	`none`	Student number, in the page header
`student-id`	`string`	`none`	Currently unused
`duration`	`string`	`none`	Exam duration, in the info box
`allowed-aids`	`string`	`none`	Allowed aids, in the info box
`supervisor`	`string | array`	`none`	Examiner(s) or supervisor(s), in the info box
`university`	`string`	`sdu-university`	University name
`logo`	`content`	`none`	Custom image e.g. `image("sdu-logo.png", width: 12em)`
`outline`	`bool`	`true`	Table of contents after the cover
`outline-depth`	`int`	`none`	Max heading depth in the outline

10 research

arXiv/ICML-style paper. With a single affiliation, every author is tagged with it automatically.

Parameter	Type	Default	Description
`title`	`string`	`default-title`	Paper title
`subtitle`	`string`	`none`	Italic subtitle under the title
`running-title`	`string | auto`	`auto`	Page header from page 2 (`auto` uses `title`, `none` hides it)
`author`	`string | array`	`default-author`	Paper author(s); array items may be strings or `(name:, affiliation: 1 | (1, 2), equal: bool, email:)` dicts
`affiliations`	`array`	`(sdu-university,)`	Author affiliations, numbered from 1
`date`	`string`	`none`	Date of the paper
`repo`	`string`	`none`	Repository URL, shown as a link
`abstract`	`content`	`none`	Abstract under the title
`keywords`	`string | array`	`none`	Keywords under the abstract
`columns`	`int`	`2`	Number of text columns
`outline`	`bool`	`false`	Table of contents under the abstract
`outline-depth`	`int`	`none`	Max heading depth in the outline

11 Cards

`theorem`, `corollary`, `definition`, `example`, `proof` and `block`:

Parameter	Type	Default	Description
`title`	`string`	card name	Card heading (`block` defaults to `none`)
`width`	`relative`	`100%`	Width of the card

`block` also takes:

Parameter	Type	Default	Description
`header-fill`	`color`	`rgb("#7c8592")`	Background colour of the title bar
`body-fill`	`color`	`rgb("#f3f4f6")`	Background colour of the body

12 question and answer

An exercise prompt in a grey box, and an indented answer under it.

Parameter	Type	Default	Description
`title`	`string`	`none`	Bold label before the question, e.g. “Exercise 4”

`answer` takes no parameters, only its body: `#answer[..]`.

13 QED

A tombstone (end-of-proof square). Place `#QED` at the end of a proof; it is pushed to the right edge of the line.

14 boxed

Parameter	Type	Default	Description
`stroke`	`length`	`0.6pt`	Border thickness
`stroke-color`	`color`	`black`	Border colour
`fill`	`color`	`none`	Background colour
`inset`	`length | dict`	`(x: 8pt, y: 6pt)`	Padding inside the box
`radius`	`length`	`2pt`	Corner radius
